

Using Clinical Tools in Your Practice & Teaching

Mac-CARE and the Health Sciences Library
Faculty Development Education Series

Monday,
February 28th, 2022

12 PM – 1 PM | Zoom

About this workshop

This session will provide attendees with the skills in identifying clinical tools, using these tools in practice, and downloading these mobile apps to their personal devices. Learn about what is available through the McMaster Health Sciences Library and how it can help in your teaching and practice.

Learning Objectives

By the end of the session, you will be able to:

- Explain what a clinical tool or point of care tool is
- Explain where these tools sit on the EBP 6 S Pyramid
- Complete successful searches in these tools
