About this workshop
Learn how to find good quality images through the McMaster Health Sciences Library! This session is about finding images that are free to use in presentations for McMaster faculty and students and how to properly cite these images. Attendees will also learn PowerPoint presentation tips to make sure their presentations are well received by the audience!

Facilitator
Sadaf Ullah
Clinical outreach librarian
McMaster University
Health Sciences Library

Contact Sadaf Ullah for more information!

Learning Objectives
By the end of the session, you will be able to:
- Identify sources of quality images and provide reasons as to why some sources may not be good
- Successfully incorporate an image into a presentation
